Titanium	D10			F501 ST2 (1)								
Stilo Walnut	PA539							D387 (1)				

***We are not actual board suppliers. These matches are intended as a guide only.**

Swan Systems reserve the right to replace any of our colours with the nearest match possible if the current foil becomes unavailable.

(1) = Exact match (2) = Close match (3) = Possible match (4) = Nearest match

Note: No printer of foils can guarantee that the colour will be identical from batch to batch, so colours of both the boards supplied by the major manufacturers, and the profiles supplied by us can vary slightly from time to time, affecting the colour match.
